SEXUAL HEALTH CARE ON THE MEZO NETWORK

# A sexual health doctor, without the waiting room

A private 30-minute consult by video or voice: symptoms, erection problems, PrEP, contraception. Tests collected at your home in Lagos or at a partner lab near you. Your bank statement never names the service.

**₦15,000**
Private consult, 30 minutes

**₦12,000**
HIV test at home, result in 20 minutes

## What we treat

Every consult is with an MDCN-registered doctor, by video or voice. When something needs an examination, the doctor arranges one.

### STI testing and treatment

HIV, hepatitis B and C and syphilis in the Essential screen, with a PCR test for gonorrhoea and chlamydia in the Complete screen. Results to your phone, treatment prescribed by the doctor.

### HIV testing and prevention

A rapid HIV test at home, with an answer in 20 minutes. The doctor advises on PrEP, and after a possible exposure on PEP, which has to start within 72 hours.

### Erectile dysfunction

Assessed by a doctor by video, with your heart and blood sugar risk checked first, and treatment prescribed where it is safe for you.

### Contraception

Advice on every method, emergency contraception included, with a prescription where appropriate.

### Sexual dysfunction

Low libido, pain during sex and other concerns, treated clinically and confidentially by a doctor.

### Intimate skin

Rashes, sores, warts and skin concerns in intimate areas, assessed by video first, with an examination arranged when one is needed.

# Prices

One price each, paid online before anything happens. No account needed.

## Book in two minutes. No one needs to know.

01

### Choose

Book the private consult, or go straight to a test if you know what you need.

02

### Pay

No account needed. Your bank statement shows Paystack and Consult for Africa only.

03

### Consult or collect

Talk to the doctor by video or voice, or a nurse in plain clothes takes your sample at home.

04

### Results

To the phone you booked with, never to anyone else. If anything is positive, a doctor calls you the same day.

### Seen by your doctor only

What you tell us and what we find is open to the clinician treating you and to you. Mezo staff never see what it was about.

### A statement that says nothing

Your bank statement shows Paystack and Consult for Africa, not the service. No one looking at your transactions will know why.

### No judgement

Our doctors treat sexual health like any other medical concern: clinical, professional and confidential.

**Was the risk in the last 72 hours?** Sex without a condom, a condom that broke, or sex you did not agree to: a test today cannot show it yet. You may need PEP, a medicine that stops HIV taking hold, and it has to start within 72 hours. Go to a hospital emergency department or an HIV clinic today. If you were sexually assaulted in Lagos, the Mirabel Centre at LASUTH, Ikeja, gives free, confidential care. Test with us afterwards.
